CONTENTS - VOLUME XII, 1986

Nos. 1/2/3

Introduction
Ethics and errors of clinical trials and the role and place of different types of trial
MATHÉ G., REIZENSTEIN P. 1

Proposals for ethical standards in therapeutic trials with humans
ARPAILLANGE P., DION S., MATHÉ G. 11

The ethical approach to phase I clinical trials in oncology
DURRY G., DION S. 21

Phase I trials of single agents in adult solid tumours: preclinical and clinical aspects
DODION P., KENIS Y., STAQUET M. 23

Phase I trials of biological response modifiers
SMALLEY R.V., OLDHAM R.K. 31

The ethical approach to phase II clinical trials in oncology
DION S. 41

Update on planning of phase II clinical trials
GEHAN E.A. 43

Comparison of clinical protocols through the mathematical results analysis of survival curves
ERIGUCHI M., MATHÉ G. 51

Phase II trials in cancer: present status and analysis methods
LEE Y.J. 57

Biostatistical aspects of adjuvant therapy assay
HUDEC M., PLATZ H. 73

Clinical trials of the treatment of minimal residual tumours
MATHÉ G., REIZENSTEIN P., ERIGUCHI M. 83

The ethical approach to randomization in oncology
ARPAILLANGE P., DION S. 99

The contribution of clinical trials to the treatment of patients with early stages of Hodgkin's disease
TUBIANA M., COSSET J.M., CARDE P., HENRY-AMAR M., HAYAT M., AMIEL J.L. 105

Clinical trials of myeloma treatment: a review
ÖSBY E., REIZENSTEIN P. 113

Ovarian tumours
SALZER H. 119

Breast tumours: a review of adjuvant chemotherapy trials
PLAGNE R. 135

Adriamycin, vincristine, cyclophosphamide and 5-fluorouracil (AVCF) compared with cyclophosphamide, methotrexate and 5-fluorouracil (CMF) in premenopausal breast carcinoma. Personal results
MATHÉ G., MISSET J.L., PLAGNE R., REIZENSTEIN P., BELPOMME D., LE MEVEL B., GUERRIN J., FUMOLEAU P., METZ R., DELGADO M., DE VASSAL F., ERIGUCHI M., SCHNEIDER M. 143

Neoadjuvant chemotherapy of breast cancer
JACQUILLAT C., BAILLET F., AUCLERC G., KHAYAT D., BLONDON J., AUCLERC M.F., FAC-CHIN T., LEFRANC J.P., WEIL M. 147

The value of radiation therapy after excision of stage I breast cancer
GOODSON W.H. III 153

Breast tumours: adjuvant radiotherapy trials
PLAGNE R. 159

Radiotherapy and chemotherapy of malignant brain gliomas
HILDEBRAND J. 167

The choice of treatment in polycythaemia vera
NAJEAN Y., DRESCH C. 177

Modern trends in the management of hepatocellular carcinoma
RAZIS D.V., PETOUNIS A., HADZIYANNIS S.J. 181

Combination of surgery and chemotherapy for small-cell bronchial carcinoma
KARRER K., DENCK H., DRINGS P., OREL J., BRUNO M.F. and COOPERATIVE GROUP 191

Trials of adjuvant chemotherapy in colorectal cancer
GILBERT J.M. 201

Short-term results of the combination of cis-platinum, 5-fluorouracil and bleomycin in advanced upper aerodigestive tract cancer
LACAU ST GUILY J., BASSOT V., BRASNU D., WEIL M., JACQUILLAT C., LACCOURREYE H. 211

Advances in the management of testicular cancer
ELLIS M., SIKORA K. 219

Clinical studies with new anthracyclines: epirubicin, idarubicin, esorubicin
HURTELOUP P., GANZINA F. 233

Peplomycin therapy for skin cancer in Japan
IKEDA S., ISHIHARA K., MATSUNAKA N. 247

Relationship between the intracellular accumulation of anthracyclines and effectiveness *in vitro* and *in vivo*
TAPIERO H., MUNCK J.N., FOURCADE A. 257

Cellular pharmacology of anthracycline resistance and its circumvention
TAPIERO H., FOURCADE A., MUNCK J.N., ZWINGELSTEIN G., LAMPIDIS T.J. 265

Aclacinomycin A: clinical development of a novel anthracycline antibiotic in the haematological cancers
WARRELL R.P. Jr. 275

Busulfan versus ^{32}P in polycythaemia vera
ZITTOUN R. and THE EORTC LEUKAEMIA AND HAEMATOSARCOMA COOPERATIVE GROUP 283

Clinical development of iproplatin (CHIP)
CREAVEN P.J., PENDYALA L., MADAJEWICZ S. 287

Potential of continuous tumour cell lines for establishing patterns of cross-resistance and collateral sensitivity *in vitro*
HILL B.T. 293

No. 4

Correlation between structure and biological properties of cephalosporins: the discovery of ceftriaxone
REINER R. 299

Experimental efficacy of apalcillin and cefpiramide compared with that of six other antipseudomonal agents in *Pseudomonas aeruginosa* burn infections
FU K.P., VINCE T., HUNG P.P., GREGORY J.F. 303

In vitro activity of coumermycin alone or in combination against *Staphylococcus aureus* and *Staphylococcus epidermidis*
VAN DER AUWERA P., KLASTERSKY J. 307

In vitro activity of pefloxacin
HUSSON M.O., IZARD D., BOUILLET L., LECLERC H. 313

Antimicrobial activity of norfloxacin in enteric and urinary tract infections: combined effect of norfloxacin with aminoglycosides, tetracycline and chloramphenicol
MASCELLINO M.T., LORENZI A., BONANNI M., IEGRI F. 319

Antimicrobial activity of cefotiam combinations against *Enterobacteriaceae* moderately susceptible or resistant to this new cephalosporin
HUSSON M.O., IZARD D., LECLERC H. 325

Correlation of β-lactamase stability and antibacterial activity of β-lactams in β-lactamase-producing bacteria and respective transconjugants
ESPOSITO S., GALANTE D., BARBA D., PENNUCCI C., LIMAURO D. 329

Bactericidal effects induced by laser irradiation and haematoporphyrin against Gram-positive and Gram-negative microorganisms
MARTINETTO P., GARIGLIO M., LOMBARD G.F., FISCELLA B., BOGGIO F. 335

The pharmacokinetic profile of clofoctol in rat plasma and tissues after oral and rectal administration
ALESSANDRI M.G., DUCCI M., SCALORI V., DANESI R., DEL TACCA M., BERNARDINI M.C., MAZZANTI L. 343

Comparison of brodimoprim and doxycycline in acute respiratory tract infections. A double-blind clinical trial
SALMI H.A., LEHTOMÄKI K., KYLMÄMAA T. 349

A study on structure-activity relationships of nucleoside analogues
BERÁNEK J. 355

No. 5

Evaluation of a stable 5-F prostacyclin analogue as an antithrombotic agent in haemodialysis
NICHOLSON N.S., SMITH S.L., TAITE B.B., KRUEGER A., FULLER G.C. 371

Nicardipine: protection against brain hypoxia
MONTERO J.L., GRAU M., BALASCH J. 377

Haemodynamic effects of Ro 13-6438, a new inotropic agent with vasodilating properties
BRAUN S., SHARGORODSKY B., TALIT U., LANIADO S. 381

Piretanide in the treatment of essential hypertension. A double-blind comparison versus placebo
VERHO M., RANGOONWALA B., BELOSO M., MAASS L., BENDER R., GARDUNO D. 385

A comparison of the hypotensive and metabolic effects of 50 and 100 mg atenolol per day
LITHELL H., ÅBERG H., SELINUS I. 393

Therapeutic experience with ketoconazole
DIFONZO E.M., PALLESCHI G.M., VANNINI P., PANCONESI E. 397

Ketoconazole treatment in superficial mycoses
PUIATTI P., CERVETTI O., FORTE M., ZINA G. 405

Ketoconazole treatment of chronic mucocutaneous candidiasis
MONTAGNANI A., NEGOSANTI M., PATRIZI A. 409

Treatment with ketoconazole in diabetic patients with vaginal candidiasis
BALBI C., D'AJELLO M., BALBI G.C. 413

Ketoconazole: therapeutic results obtained in the district of Cagliari
BIGGIO P., ASTE N., MULAS P., ORRU' A. 415

Prophylaxis of mycotic infections in immunocompromised patients: a review of 27 reports and publications
CAUWENBERGH G. 419

Nos. 6/7

New developments in the field of synthetic muramyl peptides, especially as adjuvants for synthetic vaccines
LEDERER E. 429

Overview of the interaction between chemotherapeutic agents and DNA
WARING M.J. 441

Structural aspects of drug-DNA complexes: molecular modelling of intercalative interactions
NEIDLE S. 455

Mechanism of interstrand cross-linking of DNA by anticancer 2-haloethylnitrosoureas
LOWN J.W., KOGANTY R.R., BHAT U.G., SAPSE A.-M., ALLEN E.B. 463

Natural quinones as quinonemethide precursors – ideas in rational drug design
MOORE H.W., CZERNIAK R., HAMDAN A. 475

Molecular mechanism of novel DNA sugar damage by an antitumour protein antibiotic
GOLDBERG I.H., KAPPEN L.S., POVIRK L.F., CHIN D.-H. 495

Present aspects concerning the molecular mechanisms of photochemotherapy with psoralens
RODIGHIERO G., DALL'ACQUA F. 507

Effects of ledakrin on DNA and cell cycle in HeLa S3 cells
WOYNAROWSKI J.M., KONOPA J. 517

Reaction of platinum cytostatics of the second generation with deoxyribonucleic acid
KLEINWÄCHTER V., RAU H. 523

Synthesis of reactive metabolite-analogues of cyclophosphamide for comparisons of NMR kinetic parameters and anticancer screening data
LUDEMAN S.M., BOYD V.L., REGAN J.B., GALLO K.A., ZON G., ISHII K. 527

From bis-intercalators to cell biology
VITKAUSKAS G.V., CANELLAKIS E.S. 533

Inhibition of mammalian tumour thymidylate synthetase by 2′-deoxyuridine 5′-phosphate analogues
RODE W., KULIKOWSKI T., KĘDZIERSKA B., SHUGAR D. 545

Synthesis and retention of methotrexate polyglutamates in Ehrlich ascites carcinoma cells
BALIŃSKA M. 551

Rational design of substrate analogues targeted to selectively inhibit replication-specific DNA polymerases
BROWN N.C., DUDYCZ L.W., WRIGHT G.E. 555

Evaluation of enzyme inhibition data in screening for new drugs
BUSH K. 565

Anticapsin: an active site directed inhibitor of glucosamine-6-phosphate synthetase from *Candida albicans*
MILEWSKI S., CHMARA H., BOROWSKI E. 577

Drug delivery systems: optimising the structure of peptide carriers for synthetic antimicrobial drugs
PAYNE J.W. 585

Brief survey of scope and limitations of quantum and statistical mechanical methods
GELLER M., SHUGAR D. 595

Interaction of polyene antibiotics with membrane lipids: physicochemical studies of the molecular basis of selectivity
BOLARD J. 613

Interaction of lucensomycin with cholesterol in membranes: kinetic and structural studies
CAPUOZZO E., CRIFO C., SALERNO C., STROM R. 619

Structural features determining the haemolytic activity of vacidin A derivatives
MAZERSKI J., CYBULSKA B., BOLARD J., BOROWSKI E. 627

Cell wall of pathogenic yeasts and implications for antimycotic therapy
CASSONE A. 635

No. 8

Comparative toxicity study of hydrocortisone 17-butyrate 21-propionate (HBP) ointment and other topical corticosteroids in rats
KIMURA M., TARUMOTO Y., NAKANE S., OTOMO S. 643

Penicillin-binding proteins of filaments of *Escherichia coli* induced by low concentrations of nalidixic acid, oxolinic acid, novobiocin or nitrofurantoin
AMARAL L., SCHWARZ U., LORIAN V. 653

In vitro studies on anthracycline haloderivatives
FACCHINETTI T., GERONI C., FUMAGALLI A., GIULIANI F.C. 657

Nesosteine: a new mucoregulatory agent
SCURI R., MONDANI P., FROVA C., FANTINI L. 663

Electrocerebral and behavioural analysis of systemic kainic acid-induced epilepsy in the rat
SCERRATI M., ONOFRJ M., PACIFICI L., POLA P., RAMACCI M.T., ROSSI G.F. 671

Prostaglandin E_1 incorporated in lipid microspheres in the treatment of peripheral vascular diseases and diabetic neuropathy
HOSHI K., MIZUSHIMA Y., KIYOKAWA S., YANAGAWA A. 681

Chronic hypnotic efficacy of estazolam
LAMPHERE J., ROEHRS T., ZORICK F., KOSHOREK G., ROTH T. 687

Dose effects of temazepam tablets on sleep
ROEHRS T., VOGEL G., VOGEL F., WITTIG R., ZORICK F., PAXTON C., LAMPHERE J., ROTH T. 693

Effect and tolerability of omeprazole in the treatment of duodenal ulcer disease
RINETTI M., VEZZADINI P., JONSSON E., TOMASSETTI P., LABÒ G. 701

Effects of carnitine administration in patients with chronic renal failure undergoing periodic dialysis, evaluated by computerized electromyography
ROCCHI L., FEOLA I., CALVANI M., D'IDDIO S., ALFARONE C., FRASCARELLI M. 707

Clinical trial of high doses of Bay i 7433 (Copovithane)
UCCI G., RICCARDI A., DANOVA M., FARAVELLI M., SALVINI P., GIRINO M. 713

Nos. 9/10

Pharmacological stabilization of excitable membranes. Introduction
BENEŠ L. 717

Is drug-induced membrane stabilization a selective or a non-specific phenomenon?
ROTH S.H. 719

Structure-activity relationship in carbanilic acid derivatives
BENEŠ L. 723

Amino-containing local anaesthetics of bifunctional structure. Activity and structure dependence
BORISOVA E.Ya., LUKASHOVA L.A., TUBASHOVA I.A., CHERKASOVA E.M. 735

Ab initio and PCILO investigations of local anaesthetic-model membrane interactions
REMKO M., VAN DUIJNEN P.T., SEKERKA I., ČIŽMÁRIK J. 739

Use-dependent blockade of sodium channels by local anaesthetics and antiarrhythmic drugs. Effects of chloramine-T and calcium ions
KHODOROV B.I., ZABOROVSKAYA L.D. 743

Effect of local anaesthetics and pH: new aspects
ŠTOLC S., STANKOVIČOVÁ T. 753

pH dependence of the blocking activity of carbisocaine and its derivatives
STANKOVIČOVA T., ŠTOLC S., SZÖCSOVÁ H., BENEŠ L. 761

Selective drug action on two Ca^{2+} uptake processes in normal and hyperexcitable presynaptic membrane
RIKER W.K., TAKASHIMA K., MATSUMOTO M. 765

The stabilization of vascular smooth muscle by procaine
KITAMURA K., ITOH T., UENO H., KANMURA Y., INOUE R., KURIYAMA H. 773

The effects of some carbamate local anaesthetics on the guinea-pig ileum
BEZEKOVÁ M., BAUER V. 785

Carbamate-induced rhythmic activity in the guinea-pig ileum
BAUER V., BEZEKOVÁ M., CÍLKOVÁ D., BENEŠ L. 791

The effect of carbamate local anaesthetics on vascular smooth muscle
TÖRÖK J., SARTORIS M., BAUER V. 799

Myocardial cell membrane stabilization and antiarrhythmic action
SZEKERES L. 809

Mechanism of action of calcium antagonists on myocardial and smooth muscle membranes
ZAKHARI S. 817

Effects of membrane stabilizing agents and radiation on liposomal membranes
NAKAZAWA T., NAGATSUKA S., YUKAWA O. 831

Perturbation of lipid membranes by local anaesthetic carbisocaine
ONDRIAŠ K., MIŠIK V., ŠTOLC S. 837

A pH-dependent disordering efficacy of new local anaesthetics with carbanilate structure. A spin label study in model membranes
MAŽUR M., ŠTOLC S., HORVÁTH L.I. 841

Pharmacological properties of a new local anaesthetic, carbisocaine
TUMOVÁ I., ŠVEC P. 845
